

PRIMARY CELLS

MEDIA & REAGENTS

CELL BIOLOGY PRODUCTS

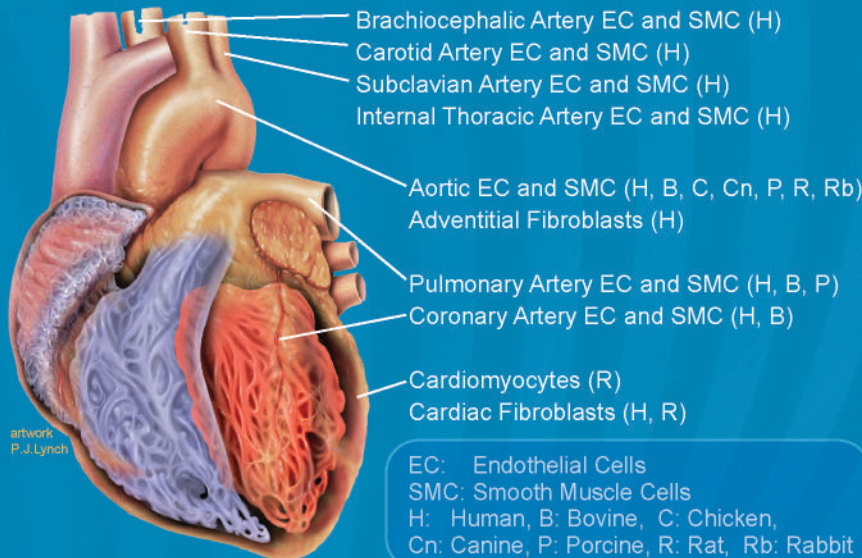

**The largest selection of cardiovascular cell types!**

- High purity and low passage
- Rigorous quality control
- Cells from a variety of tissues & species
- Matched sets from the same donor
- Maximum flexibility
- Custom services
- Ready-to-use Total Kits

**> 600 published studies on:**

- Mechanisms of immune response
- Vascular occlusion and restenosis
- Diabetes-associated complications
- Effects of environmental pollution
- Oxidative stress and inflammation
- Stroke & atherosclerosis
- Angiogenesis & cancerogenesis
- Drug discovery & cardiotoxicity
- Tissue engineering & regeneration

**Heart Cells**

**Other Large Vessels Cells**

- Renal Artery EC and SMC (B)
- Umbilical Artery EC and SMC (H)
- Umbilical Vein EC and SMC (H)

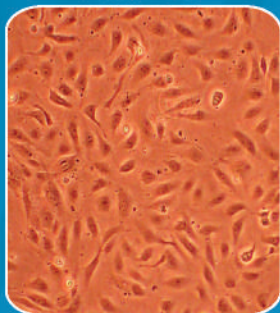

**Microvascular Cells**

- Brain Microvascular EC (B, R)
- Dermal Lymphatic Microvascular EC (H)
- Dermal Microvascular EC (H)
- Lung Microvascular Endothelial Cells (H)

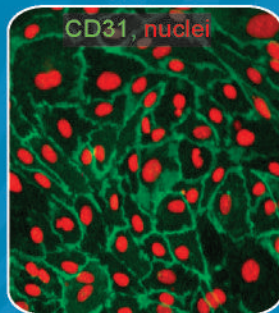

**Blood Cells**

- Mononuclear Cells (H)
- Peripheral Blood CD4+ T Cells (H)
- Peripheral Blood CD14+ Monocytes (H)
- Peripheral Blood CD19+ B Cells (H)

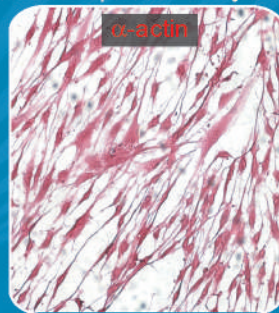

Aortic EC

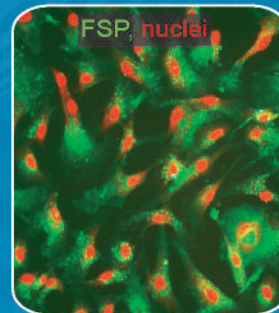

Aortic EC

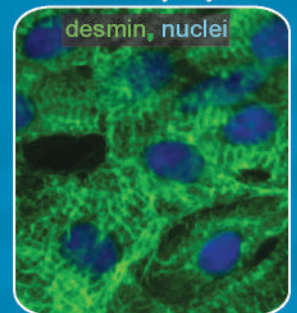

Brachiocephalic Artery SMC

Cardiac Fibroblasts

Cardiomyocytes
